

# Our Gang Ice Racing

## Summary of Changes for the 2022 Season

This year, our focus at the Annual Meeting was on clarifying changes that were introduced last season. For the sake of clarity, we have written up a summary that highlights the main things that you should be aware of.

### Registration

- **All entrants must register and pay online by 5:00pm on the Thursday preceding the event.** Cash will not be accepted at the lake and there will be no opportunity to register late or on site.
- The vehicle tech inspection fee is now included with registration. All vehicles must be tech inspected once per season before they can be driven on the ice, but there is no longer an additional charge.
- If you wish to cancel your registration or you are unable to make it to the event, a credit can be issued which may be applied to a future race during the same race season. These credits are no longer available once you have checked in at the event. Any credits remaining at the end of the season will be retained by the club. No refunds will be issued at any time.

### Work Expectations

- **All race competitors are required to help run a class that they are not participating in by flagging corners, helping stage, or any other duties necessary to safely run the event, as others will be volunteering to run YOUR class. If you are not prepared or refuse to help out, you may not be permitted to participate.**

### Membership

As with last season, membership applications will be accepted throughout the season and we will continue to add more perks available to members only in order to get people excited about being a member and help grow the club.

- Competitors may apply for membership once the application is made available through the end of the race season. Applicants must have competed in races on at least two separate weekends before they are eligible to become members (this includes prior seasons).
- Members joining mid-season will not be eligible for discounts until the following season.
- Friday Fun Days this season are reserved for members only.
- All regular meetings occurring during the race season will be held online. The **mandatory** Annual Meeting, which is typically held in April, was also held online in 2021, but may be held in person in the future.

## **Sunday Fun Day Track**

This new event was a hit last season, so we're bringing it back! We understand that some people just want the experience of driving on ice without the pressure of competition, so this event takes place on a practice track set aside specifically for drivers who want dedicated seat time without the constraints and stress of competing in a tournament-style bracket. In short, drivers are able to practice for hours on end without the threat of being eliminated.

- Take as many practice laps as you can make within a 4+ hour window
- Entry fee of \$59.99 per vehicle (up to 4 drivers allowed per vehicle)
- Limited to 32 vehicles
- No brackets, no awards, no pressure
- All vehicles must be licensed, registered, and insured for use on public roads
- Tires must be factory produced and DOT approved for use on public roads

Participants may register for **either** the Sunday Fun Day Track **or** one of the competitive race classes. Once registration closes, participants will not be able to change events. The Sunday Fun Day Track will be reserved only for participants who sign up specifically for this event and participants will not have to worry about competitors who were eliminated from the competitive race brackets coming over and taking time on their track.

**NOTE: This event filled up between 1-2 weeks early every single Sunday last season. If you are interested in taking part, we highly recommend planning ahead and registering well in advance!**

## **Race Class Size Limits**

Each of the following race classes will be limited to 16 competitors. If you are planning to compete in one of these race classes, we recommend registering early if you want to be ensured a spot. If you wait until the last minute, they may be full.

- **Street Bare Rubber**
- **Pro Street Bare Rubber**
